

For an Anti-authoritarian Insurrectionalist International

Proposal for a debate

At a time when the Mediterranean region is involved in political games worse perhaps than ever before it is important to reflect on the social, economic and political conditions that are intermingling and interacting, producing situations of extreme tension but also opening up a vast field of intervention to all revolutionaries.

We consider the form of struggle best suited to the present state of class conflict in practically all situations is the insurrectional one, and this is particularly so in the Mediterranean area. By insurrectional practice we mean the revolutionary activity that intends to take the initiative in the struggle and does not limit itself to waiting or to simple defensive responses to attacks by the structures of power.
