

FREEDOM TO ALL the IMPRISONED ANARCHISTS IN CHILE

ACCUSED IN THE “BOMBS CASE”

On August 14 2010 in a coordinated attempt of the police and the media, raids are carried out in various squats and houses in Santiago, Chile as well as other parts of the country. 14 people are arrested and accused of placing explosive and incendiary devices and constituting an illegal terrorist organisation, the case is known as the “**bombs case**” and the arrested are being prosecuted under the anti-terrorist law which was invented during the dictatorship of Pinochet and continues to exist today. From **February 21** at least 9 of them have been on a **hunger strike** fighting for their freedom and justice.

Anarchists, antiauthoritarians, protestors and every voice of resistance are held hostage in the “cells of democracy” in every State, where politicians, bankers, tycoons are stealing the social wealth; they are responsible for the poverty and exploitation of the people but are free and live among us.

the only terrorist is the State
